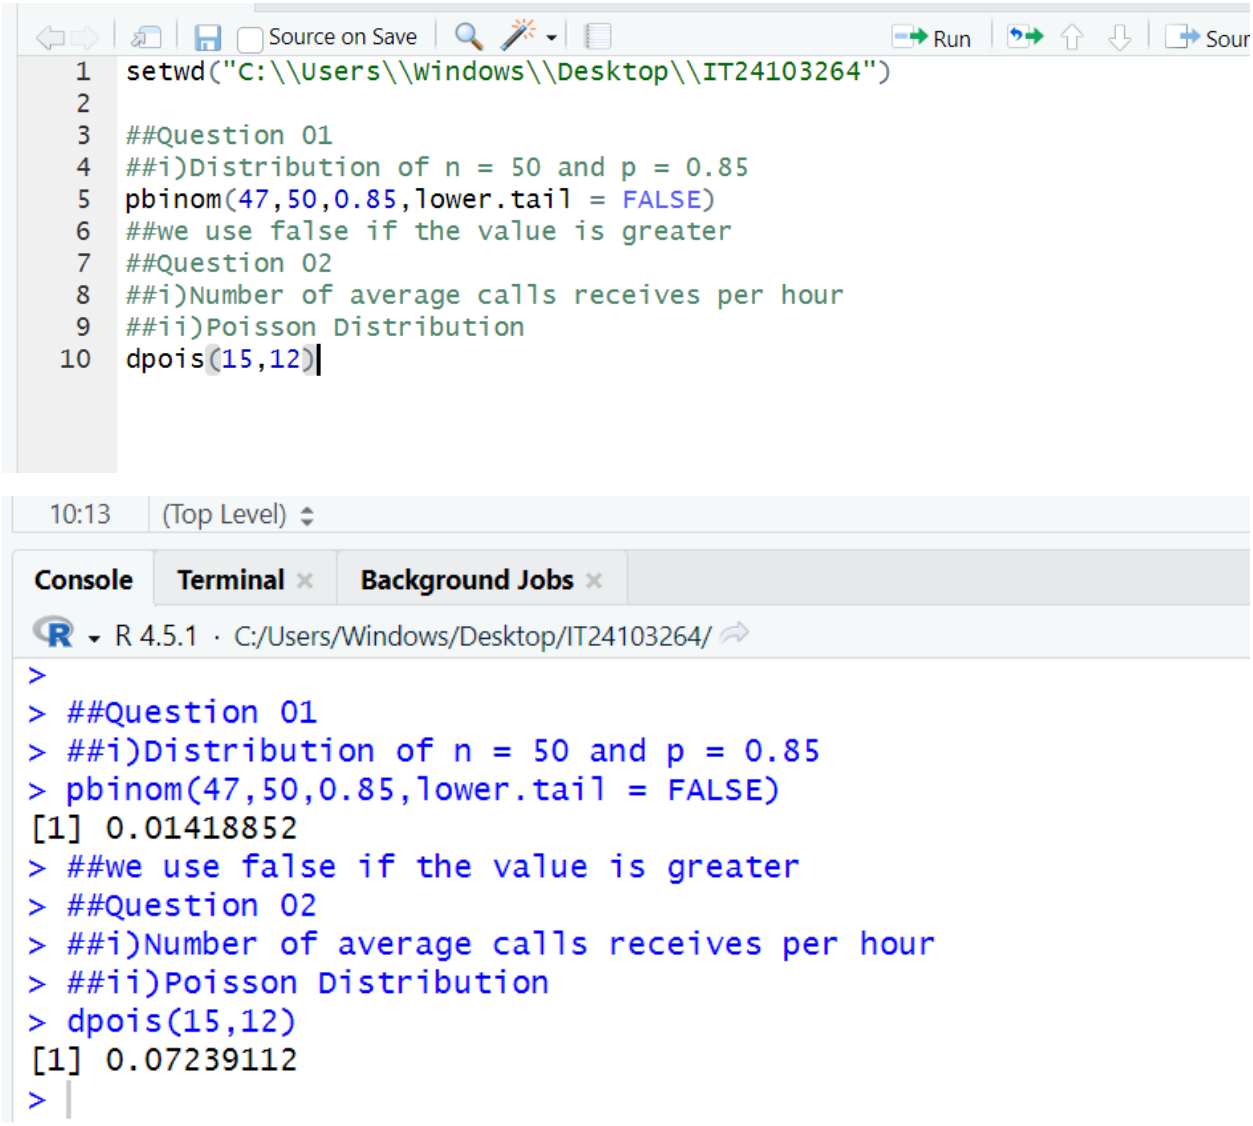
Exercise



```
setwd("C:\\Users\\Windows\\Desktop\\IT24103264")

##Question 01
##i)Distribution of n = 50 and p = 0.85
pbinom(47,50,0.85,lower.tail = FALSE)
##we use false if the value is greater
##Question 02
##i)Number of average calls receives per hour
##ii)Poisson Distribution
dpois(15,12)
```

```
> 
> ##Question 01
> ##i)Distribution of n = 50 and p = 0.85
> pbinom(47,50,0.85,lower.tail = FALSE)
[1] 0.01418852
> ##we use false if the value is greater
> ##Question 02
> ##i)Number of average calls receives per hour
> ##ii)Poisson Distribution
> dpois(15,12)
[1] 0.07239112
> 
```
